

UHU

MONSTERS

3D PAPER FIGURE OF STICKY

Materials required :

- Scissors
- Ruler
- UHU stic
- Printed templates

DURATION: 2 HOURS

DIFFICULTY: ★★★★★

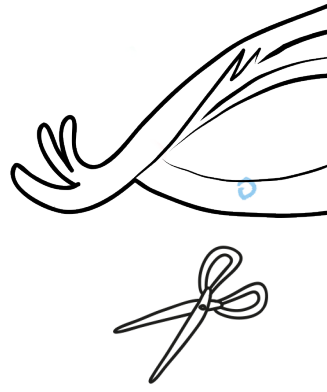

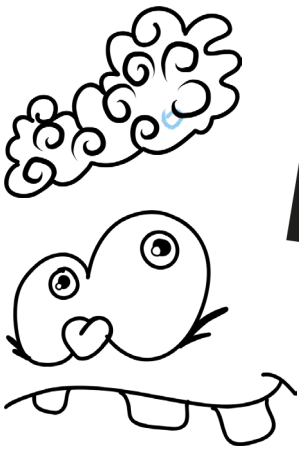

SKILLS: FINESSE CUTTING, PRECISION GLUING

UHU®

MONSTERS

3D PAPER FIGURE OF STICKY

1. Print and cut out all parts carefully. The left arm is cut along the line.

2. Fold all parts along the dotted lines. Tip: For easier folding, place a ruler on the line and carefully score with a scissor.

3. Glue the front and back of the two ears and arms together. Leave out the glue flaps.

4. Glue the front and back of the horns and hair together.

5. Glue the lower (longer) area of part 1 of the body of Sticky together at the flaps.

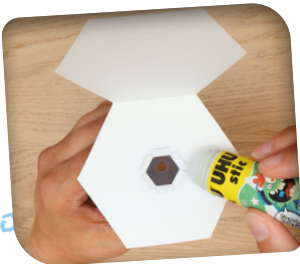

6. Glue part 2 of the body to part 1 and then glue the lower flaps together.

7. Glue the top ones together one after the other so that you end up with a closed body shape.

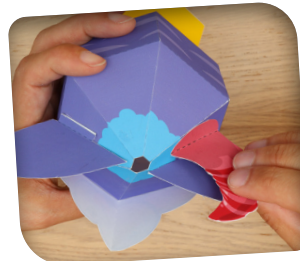

8. Guide the flaps at the lower end of the body through the opening in the base, fold outwards and glue to the underside.

9. Glue the top and bottom of the base together. Tip: For a better stand, you can glue the base to firmer cardboard/paper.

10. Fold the face in half and glue it to the front of the body.

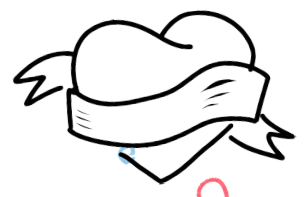

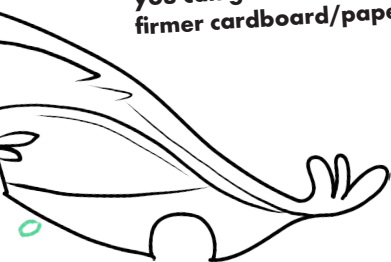

11. Glue the ears and the horns to the marked places on the head.

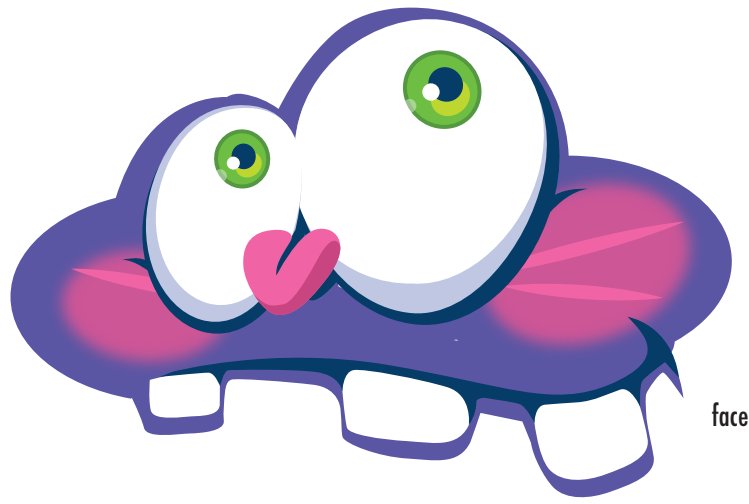

12. Stick the hair into the top opening and glue it in place.

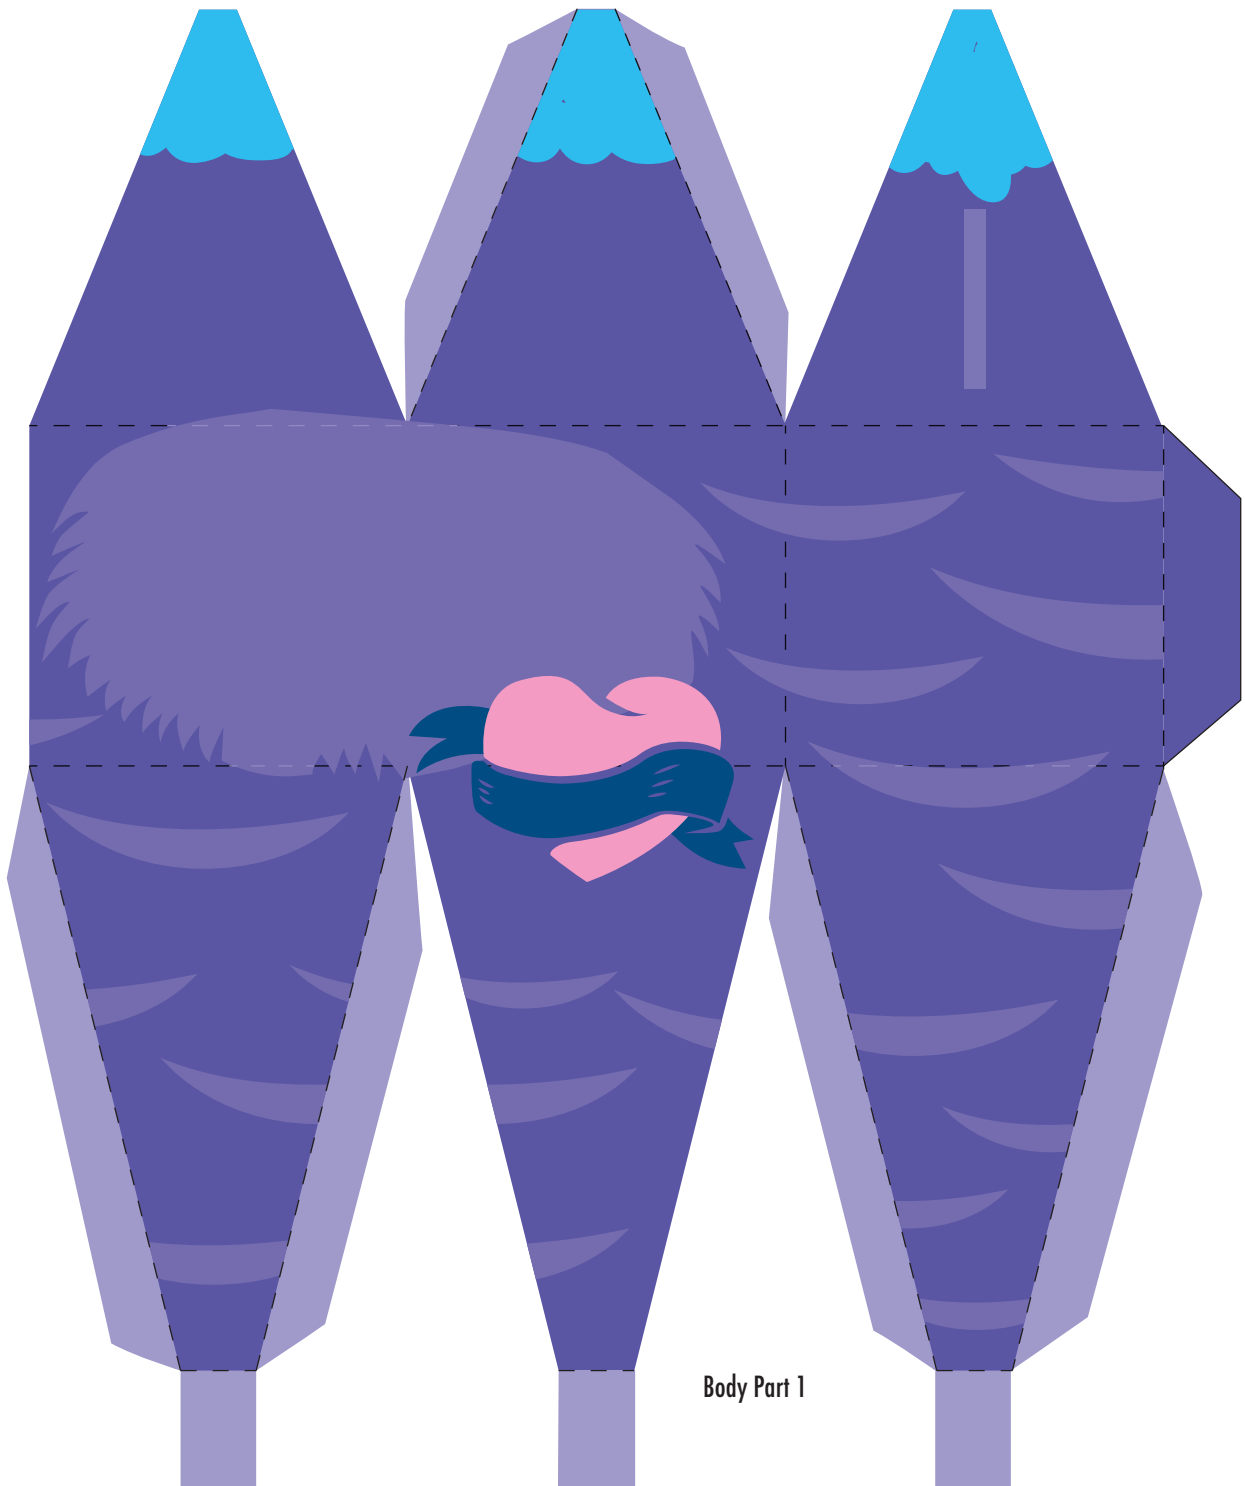

13. Glue the arms to the sides of the body using the flaps. Done!
